

Mezcladores automáticos

**GLUE MIXERS**

For glue UF, PRF, MUF, EPI

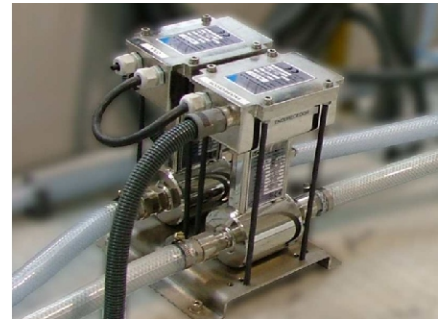

2, 3 or 4 components liquid or powder

Capacity 3 - 20 kg/min

Automatic or Semiautomatic

Level sensor  
Security alarms

Instalation Directly on spreader or like a fountain for several spreaders

**MEETERING SYSTEMS AND CONTROL**

Batch systems

Ratio control glue hardener in continus

Configuration of the alarm limits

Information of the glue consumptions and hardener.

Calculation of glue amount (upper and lower), management of the containers. Information of the flow of each product.

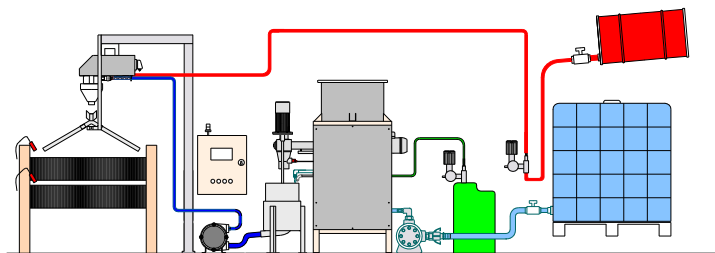

**COOLING SYSTEMS**

For cooling glue or mixed glue PVAC, UF, MUF or PRF

Cooling of: 1, 2 or 3 Spreaders tanks  
Membrane press frame  
Double skin pumps

Frigorific power from 1.600 a 7.000 Kcal/h  
With control panel

**PROJECTS**

- Glue preparation for plywood industry
- Automatic metering for glue, fillers etc...
- Temperature control
- Glue amount calculation
